Claims

[c1]	
	1.A scrubbing, buffing machine comprising:
	(A)a frame;
	(B)a first scrubber attached to said frame;
	(C)a buffer attached to said frame;
	(D) a squeegee attached to said frame, behind said first scrubber and in front of said buffer; and
[c2]	(E)a motor means, mounted on said frame, providing power to said first scrubber and said buffer.
[c3]	2.A scrubbing, buffing machine, as recited in claim 1, wherein said motor means is an engine.
[c4]	3.A scrubbing, buffing machine, as recited in claim 1, further comprising a second scrubber attached to said frame and powered by said motor means.
[c5]	4.A scrubbing, buffing machine, as recited in claim 2, further comprising a vacuum powered by said engine and in communication with said squeegee for collecting refuse fluid.
[c6]	5.A scrubbing, buffing machine, as recited in claim 2, further comprising a first drive wheel and a second drive, each in mechanical communication with said engine.
[c7]	6.A scrubbing, buffing machine, as recited in claim 1, further comprising a first and a second stability wheel attached to said frame.

7.A scrubbing, buffing machine, as recited in claim 1, further comprising a control panel mounted on said frame for providing user controls. [c8] 8.A scrubbing, buffing machine, as recited in claim 1, wherein said frame is made of steel. [c9] 9.A scrubbing, buffing machine, as recited in claim 1, wherein said first scrubber further comprises: (1)a first scrubber pad; (2)a first gear box. [c10] 10.A scrubbing, buffing machine, as recited in claim 3, wherein said second scrubber further comprises: (1)a second scrubber pad; (2)a second gear box. [c11] 11.A scrubbing, buffing machine, as recited in claim 1, wherein said buffer further comprises: (1)a buffer pad; (2)a gear box. [c12] 12.A scrubbing, buffing machine, as recited in claim 1, wherein said squeegee further comprises: (1)a squeegee mount fixed to said frame, and (2)a squeegee blade attached to said squeegee mount. [c13]

13.A scrubbing, buffing machine, as recited in claim 2, wherein said engine is selected from the group of engine types consisting of propane engines, gasoline engines, electric motors and battery powered motors.

[c14]

- 14.A scrubbing, buffing machine, as recited in claim 2, wherein said engine further comprises:
- (1)a fuel tank attached to said frame;
- (2)an internal combustion engine receiving fuel from said fuel tank;
- (3)a vacuum / blower in mechanical communication with said internal combustion engine;
- (4)an exhaust cooling chamber receiving exhaust from said vacuum / blower to cool exhaust from said internal combustion engine;
- (5)an electric clutch in mechanical communication with said internal combustion engine;
- (6)an alternator in mechanical communication with said internal combustion engine; and
- (7)a battery in electrical communication with said alternator.
